That's the basics. Understand, the Soviet Union collapsed in 1991 and Ukraine was like the Wild West. Ukraine is also where energy gets transferred from the East to Europe.

Since their economy was a disaster, in the 90s, the ukrainian government started splitting ownership of oil and gas properties between the government and private companies.

One such project was KASHTAN PETROLEUM LTD, which was split between Ukrnafta (the biggest

natural gas organization in Ukraine) and a new company called ZHODA CORP.

only a few years after KASHTAN got started, A company was formed in Canada called KROES ENERGY LTD. They bought Zhoda Corp and renamed it ZHODA 2001 CORP. When they did this, 55% of Kashtan Petroleum still belonged to Ukrnafta. It always has.

In the 2000s, the Ukrainian government was like the world capital of corruption. They could not get a stable government off the ground. A huge reason for this is that Russia and the EU were fighting for who would have a stronger political relationship with the Ukrainian government.

These tensions culminated in Russia cutting off the natural gas pipelines to Ukraine in 2005-2006 (most of Ukraine's natural gas still came from Russia).

As this crisis was coming to a head, two things almost simultaneously out of the office of KROES ENERGY LTD.

1) They sold off their share of the Ukrainian Kashtan project and

2) Someone working out of that office bought up a stake in DOMINION VOTING SYSTEMS CORPORATION when they filed for incorporation in Quebec.

This is extremely fucking suspicious, particularly since the directors at Kroes had strong POLITICAL ties to Ukraine and were actively trying to open up trade relations between Canada and Ukraine.

Given who ostensibly just won the 2020 election, Joe Biden, whose son was on the board of directors of one of the largest Oil/Gas companies in Ukraine, a company that has defrauded the Ukrainian people and stolen money from the country, well, guess

Read about this on /biz/ couple of days ago

>Nov-17-2006 - Shelton Canada Corp announces Private Placement offering

>Jan-23-2007 - Dominion Voting Systems Corporation files registration in Quebec

with a stakeholder located in the office of Kroes Energy Inc. but under the name FORBES ENERGY LTD. (NEQ# 1164197353)

>Feb-8-2007 - Shelton Canada Corp splits a Russian Oil Field purchase 50/50 with Chernomornaftogas

>April-3-2007 - Shelton Annouces purchase of 100% of shares of Zhoda 2001 from Kroes Energy Inc.

Shelton gets Oil fields in northern Ukraine and two more off the coast of Crimea.

>2009-2010 - Shelton Canada and Petrosibir AB merge to create Shelton Petroleum AB

>2014 - Russia invades Crimea and the new Crimean government nationalizes Chernomornaftogas.

>Shelton Petroleum AB swaps around some shares and rebrands as Petrosibir AB. These guys still own and operate Zhoda and it's Ukranian/Crimean oil/gas operations.

>WHY IS THIS RUSSIA/UKRAINE NONSENSE INVOLVED WITH DOMINION SOFTWARE?

You have to Rig elections in Ukraine, or the Russians will steal it. Not surprised they used the same method here, since Joe bidens whole cabinet had a hand helping joe do it back in Ukraine 2014

um this is part of avalanche of jew idiocy to distract that dominion is owned by avid which is owned by jew blum, married to jew feinstein.

smartmatic is owned by dlpipe company in image which is tied through clinton emails to none other than tony podesta.

the jews are running scared blaming it on everyone, and eveyrone knows jews hate

ukranians most of all. yesterday it was serbs, day before it was venezuelans, iranians and chinese.

jews did 2020 election fraud

jews did 911

it is a pattern with them, their religion teaches them to do it

btw also for vis, the picture of c. auris information is censored on 4chan, you cannot upload it without redacting it.

Not a fallacy at all. It is a statement of fact. You retards have zero standards of proof. The shitty flowchart is just that a fabrication. It has no source, it has no citations, and it is full of clips that purport to be from Wikipedia. Also, it is on this pulsating tumor of a website which is pretty much just russian active measures 24/7. The fallacy here is that you are in a cult and expect people who have the capacity for rational thought to believe the same fantasy nonsense you do. The world does not work that way.

states, the possibility of shared forces on a project as big as frauding the presidential election is EXPENSIVE.

have you thought about who is gonna secure energy for the EU? it is a billions of dollar scheme, trillions in the longterm.

and this fight alone is freaking expensive. as secret things tend to be, and not every money is usable, as most money is trackable. why do you think money tends to dissappear in big sums from time to time. some day its privatbank or wirecard, some its the defense budget of the us, sometimes "only" a few millions

from your campaignbudget.

war is costly, secretwar much more as secretmoney is needed for it.
